5 months

I have created a **messaging app** (Django Channels), a **discord bot**, multiple full **CRUD** apps, and a video rating app using the **youtube api**.

Currently I am working pro bono on a **Firestore ordering app** for a small business and a non-profit fundraiser.

Credit Risk Analyst

Jul 2017 - Dec 2017   **10 mo.**

On the New Products team I built and monitored dashboards for our latest product launches. This role required heavy utilization of Tableau, SQL (Oracle), and Excel.

Business Process Analyst

Mar 2017 - Jul 2017   **5 mo.**

I built custom datasets from live production servers. I also trained several team members to take over previous bug reporting and resolution tasks. Most work done in SQL, Tableau and Excel.

Senior Credit Specialist

Sept 2015 - Mar 2017   **1 yr 8 mo.**

In this role I worked with several different teams. I quickly took up new responsibilities teaching myself SQL and Tableau to expand our team's capabilities.

Half a year in, I transitioned into Bug reporting and analytics for our department and managed daily inventory for our Joint Application product.

Credit Specialist

Jul 2013 - Sept 2015   **2 yr 3 mo.**
